WORKSHOP
09:00-10:00 DFG 3D-Viewer Practical Guidelines on Metadata for 3D Cultural Heritage: Core Recommendations for Aggregation and Interoperability
Igor Piotr Bajena, Hochschule Mainz - University of Applied Sciences, Germany

The workshop will present the emerging DFG 3D-Viewer Practical Guidelines for interoperable metadata and aggregation of 3D cultural heritage data across repositories, infrastructures and web environments. Participants will preview the recommendation guidebook and contribute through survey and moderated discussion to identify missing requirements, use cases and priorities for further development.
